Leaders in Compressed Air Since 1960

EQUIPMENT – ½ hp – 500 hp

- Rotary Screw & Reciprocating Compressors
- Climate Control Packages
- Instrument & Plant Air Compressors—Oil-Flooded & Oil-Free Rotary Screws
- Compressed Air Dryers, Filters & Accessories
- Medical Air Compressor Systems
- Vacuum Pumps & Blowers
- Offshore Compressor Applications—Rig, Bulk, Starting, Tensioning & Breathing Air; Flare Boom & Cold Starts
- Offshore Packages—185 CFM–1800 CFM

RENTALS/ELECTRIC & DIESEL

- 24-Hour Emergency Air—Portable & Stationary
- Offshore Diesel Driven Portables
- Dryer Packages with After-Coolers

SERVICE & PARTS

- 24-Hour Shop & Field Service
 - Repair/Rebuild all Manufacturers
- All Manufacturer's Parts
- Air System Audits
- Preventative Maintenance Programs
- Packaging—Special Control Panels & Retrofits
 - Technical & Engineering Support

COMPRESSED AIR SYSTEM ACCESSORIES

- Cylinders & Valves
- Air/Oil Separators, Filters & Silencers
- Air Receivers/Tanks
- Condensate Management Systems
- Motors
- Diesel Engines

ALSO SERVING COMPLETE GULF COAST AREA

Quincy Compressors | HydroThrift | Ingersoll Rand | Prevac | Sullair | Donaldson
Parker | Zeks | Dresser Roots | Silvan Industries, Inc. | Parker-Legris Transair
Bauer Compressors | Domnick Hunter | Vaccon Vacuum Products | Sullivan Palatek
Great Lakes Air | Corken | Hankison | Manchester Tank | Dekker | Schrader Bellows
Kobelco | Pneumatech | Powerex | Aircel | Champion | Chicago Pneumatic

Preventative Maintenance Programs

McKenzie Compressed Air Solutions provides comprehensive maintenance programs to ensure your equipment is properly maintained through timely system inspections and service intervals based on your hours of operation.

Our certified, factory trained technicians are the best in the industry and perform preventative maintenance and service on all makes and models.

McKenzie provides service you can trust!

McKenzie's preventative maintenance programs are unmatched. In addition to the replacement of routine maintenance items, our service technicians perform a very thorough inspection of all equipment on the agreement to ensure functionality and mechanical integrity and implement system adjustments if necessary. We provide you with a copy of the detailed service check list outlining our inspection results, which includes the general condition of your equipment and an on-site maintenance and service log.

Your McKenzie Account Representative or Service Technician can prepare a preventative maintenance program tailored around your compressed air system and explain the return on investment (ROI) of the preventative maintenance program benefits.

The **benefits** of implementing a preventative maintenance program:

- Priority scheduling
- Prevent costly downtime
- Prolong the life of your equipment
- Energy cost savings
- Product quality & consistency
- Inflation protection with guaranteed pricing on labor and parts for one year
- Multi-year plans available
- On-site Inventory Management of recommended spares & maintenance items
